

Literacy Design Collaborative

Template Task Collection for Elementary Grades 4-5

The Literacy Design Collaborative follows its first template task collection for secondary grades (6-12) with one designed for elementary coursework in ELA, social studies, and science for grades 4 and 5. LDC is committed to equipping elementary school students with the literacy skills they will need to succeed in middle and high school. We believe students can and must reach significantly higher levels of reading, writing, and thinking, and we embrace the challenging expectations set by the new Common Core State Standards. The Literacy Design Collaborative is supported by the Bill and Melinda Gates Foundation.

This collection provides a first set of template tasks for implementing the Literacy Design Collaborative (LDC) strategy at elementary grades 4 and 5. The larger LDC framework calls for the development of other task collections, with this set as a prototype for implementing LDC's overall approach to meeting the literacy challenge set by the Common Core State Standards. The LDC approach involves writing in response to reading, so templates are constructed to ensure teaching tasks engage students in instruction for both reading and writing.

What are LDC template tasks? LDC *template tasks* are fill-in-the-blank “shells” that allow teachers to insert the texts to be read, writing to be produced, and content to be addressed. When filled in, template tasks create high-quality student assignments that develop reading, writing, and thinking skills in the context of learning science, history, English, and other subjects. Template tasks are built off of the Common Core State Standards. They specify the subjects and levels of student work for which they can be used, and they come with rubrics that can be used to score the resulting student work. Template tasks may also include Level 2 and Level 3 additions that can be used or omitted to vary the task demands.

What are LDC teaching tasks? LDC *teaching tasks* are student assignments that teachers create by using LDC template tasks and filling in their choices of texts to be read, writing to be produced, and content to be addressed. A typical LDC teaching task is designed for students to develop their responses over two to four weeks of classroom time.

All LDC template task collections are organized around the three modes of writing identified in the CCSS anchor standards: argumentation, informational or explanatory, and narrative. This first LDC template task collection for elementary is designed to support the instruction of opinion (the elementary level form of argumentation in the CCSS) and informational/explanatory writing modes. The narrative template tasks will be added at a later date. Within these writing modes, the template tasks address the text structures and critical thinking skills specified by the CCSS anchor standards, as well as many grade-specific standards for grades 4 and 5. The summary table that follows outlines the types of template tasks provided and indicates the content areas for which they are likely to be appropriate. We expect that other elementary collections will add additional template tasks to the categories/text structures within each writing mode below.

A short list of requirements applies to the use of all LDC template tasks, as shown below. In order to use these LDC template tasks, partners must agree to these requirements:

WHAT IS REQUIRED?	WHAT CAN BE CHANGED OR ADDED?
<ul style="list-style-type: none"> ▪ List the exact Common Core State Standards for the template task. ▪ Add appropriate state content standards. ▪ Provide source information for the standards you use. 	<ul style="list-style-type: none"> ▪ You can also include appropriate grade-level Common Core State Standards.
<ul style="list-style-type: none"> ▪ Fill in the template task, completing all the blanks but not altering the other template wording. ▪ List the reading texts for the prompt or describe how students will be guided to select appropriate texts. ▪ Provide a background statement that introduces the prompt to students. ▪ If an extension activity is included, provide an activity in which students share or apply what they have learned with a real-world audience or through a hands-on project. (The extension may also be omitted.) ▪ Use the exact rubric for the template task. 	<ul style="list-style-type: none"> ▪ You choose which texts students will read, the content they will study, and the writing product they will create. In choosing, consider requirements set by your state, district, or school. ▪ You decide whether to include the Level 2 and Level 3 portions of the template task and whether to include extension sections.

Common Core State Standards for Elementary Template Tasks

The LDC Elementary Template Tasks are aligned to the College and Career Readiness Anchor Standards, with two categories of standards alignment:

- **“Built in” standards** have the specified College and Career Readiness Anchor Standards built in.
- **“When appropriate” standards** vary with the content of the teaching task.

We use the anchor standards in this document so that the document is succinct and accessible to readers. For a more detailed description of the text structures and thinking skills hardwired into the LDC templates, please refer to the 4th and 5th grade-specific standards in the CCSS documents. Many of the grade-specific standards you will see have also been hardwired into the template tasks below. Teachers are also able to include additional grade-level CCSS standards when they use LDC’s new online tool called Module Creator. As teachers select a template task they will use on Module Creator, the system will default to grade-specific standards.

The following bolded Anchor Standards for reading, writing, and language are “hard wired” into these prompts. Users should bold any additional standards as appropriate to the type of task: argumentation or informational/explanatory.
